A 3x4m canvas painted to symbolise the Arkani Ngura Innovation and Technology Centre. The art will be positioned within the centre once it is built in late 2022 and will influence the centre's digital branding.

The vision of the centre is to be the 'go-to' place in the southern hemisphere to test and observe emerging technologies in mining and other sectors.

Purpose of the commissioned artwork:

Please provide details of the purposes for which the artwork is to be commissioned.

The artwork commissioned will form the idea behind Arkani Ngura Centre's brand and therefore we will require the rights to digitise and share the artwork.

Due to the size of the canvas and importance of the symbol, it is advised the sketches and descriptions of the artwork be made in the expressions of interest if the artwork does not already exist. Also descriptions are really important to deciding which piece to select so please provide some description of the artwork.
